

## Time & Space for 'Mothers and Children'

Saint Ignatius College is delighted to offer you an opportunity to experience a lifetime memory with your child at the annual 'Mother and Child' Evening.

This innovative single evening program is part of some special transition events that we offer our Year 7 students and it is happening here in our school community on the evening of Wednesday 11 May.

It is a big thing when our children move through their times of transition. Their teenage years accelerate quickly as their ride on the adolescent rollercoaster continues. They are growing up and the opportunity to reflect on the joys and challenges of this time in your lives, is one not to be missed.

This is a great night for the students as they witness their mothers discussing what it means to them to be a mum (or mentor) and see how you handle the 'letting go' process as they start to forge some independence.

We are bringing Bill Jennings to our school to facilitate this unique experience for you. Bill is the creator and founder of 'Time & Space' ([www.time-space.com.au](http://www.time-space.com.au)), a service he has developed to give people just that - 'time and space' for parents and children to share important moments together in a school community setting. This program has a whole range of memorable moments that include carefully guided interactions with other mothers and their children.

Mothers will emerge from the night reassured and impressed by the way our students are able to speak up and share insights about their life. And be assured that the night is fun too... full of activities and conversations that will make us smile as well.

Come along and enjoy a unique gift - dedicated time with each other in the midst of the special community atmosphere that we have here at Saint Ignatius College.

We know families come in all shapes and sizes and not all mothers can attend an evening such as this. A female mentor such as a grandmother, aunt or family friend is welcome to attend.
